

SJTU Online Exam Honor Code Pledge

Examinations are not only to test learning outcome, but also to measure moral behaviors. It is the common responsibility and obligation of all students to consciously maintain examination discipline and to create a fair and just examination environment. Especially during the epidemic prevention and control period, as an honest and trustworthy college student, we should strengthen the sense of self-discipline, abide by integrity and refuse to cheat.

I accept the letter and spirit of the honor code:

1. I have neither given nor received unauthorized aid on this examination, nor have I concealed any violations of the Honor Code by myself or others.
2. In the process of online examination, I shall consciously abide by the examination discipline released by the school and proctors (see the regulations on student examination discipline), and shall not plagiarize, violate disciplines nor cheat.
3. In case of violation of relevant examination regulations and disciplinary requirements, I shall accept punishment from the school.
